

SECURIT

CREATIVE WITH CHALK

In this catalogue, you can find a wide variety of chalkmarkers, cork -and chalkboards in different shapes and sizes. The products particularly evoke creativity, present in each and every one of us. On top of that, they brighten up homes and gardens with original and fun accessories, personalized with drawings and quotes.

The chalkmarkers represent a new generation of traditional chalk. Traditional chalkmarkers that are messy, easy to break and difficult to store have evolved into a convenient, pen-shaped writing tool. Not only are these chalkmarkers a new type of writing tool, they also exist in a waterproof version which can easily be used outdoors but can still be cleaned with a special rinsing spray.

We have divided this catalogue in three main sections:

- First, we start with an Essential range that shows articles meant for many different purposes. Perfect for anyone who wishes to discover the world of chalkboarding.
- Second, the Home section contains articles that are specifically intended to create a cosy home environment
- The Garden section focuses on articles that upgrade your (kitchen) garden.

At present, there is a high demand for these products as the hype of DIY and handlettering is expanding each day. A personal touch is highly valued nowadays, both in your own home and garden as well as for presents. And, that is where we come in.

Let your creativity grow and have fun browsing our assortment!
